The information, technical data and designs disclosed in this document (the "information") are either the exclusive property of Bombardier Inc. or are subject to the proprietary rights of others. The information is not to be used for design or manufacture or disclosed to others without the express prior written consent of Bombardier Inc. The holder of this document, by its retention and use, agrees to hold the information in confidence. These restrictions do not apply to persons having proprietary rights in the information, to the extent of those rights.

Signed original on file. Validation of paper prints is the responsibility of the user.

1 SCOPE

- 1.1 This Production Process Standard (PPS) is an index of PPS's applicable to all Bombardier Toronto aircraft sealing.
- 1.1.1 This PPS complements the engineering drawings that specify its use as an authorized instruction. The procedure specified in this PPS shall be followed to ensure compliance with all applicable specifications. In general, if this PPS conflicts with the engineering drawing, follow the engineering drawing. The requirements specified in this PPS are necessary to fulfil the engineering design and reliability objectives.

2 HAZARDOUS MATERIALS

- 2.1 Before receipt at Bombardier Toronto, all materials shall be approved and assigned Material Safety Data Sheet (MSDS) numbers by the Bombardier Toronto Environment, Health and Safety Department. Refer to the manufacturer's MSDS for specific safety data on any of the materials specified in this PPS. If the MSDS is not available, contact the Bombardier Toronto Environment, Health and Safety Department.

3 INDEX OF AIRCRAFT SEALING

| PPS | APPLICABILITY |
|-------|--|
| 21.02 | Application of Celastic Sheet |
| 21.03 | Priming, Sealing & Repair of Integral Fuel Tanks |
| 21.04 | Repair of Integral Fuel Tanks - <i>CANCELLED</i> |
| 21.05 | Sealing of Fibre Reinforced Composite Parts |
| 21.06 | Sealing DASH 8 Exterior Paint Edges |
| 21.15 | Machine Mixing and Handling of DHMS S3.01/B2 Sealant |
| 21.16 | Aircraft Weather/Pressure Sealing |
| 21.17 | Fuel Area Sealing - <i>CANCELLED</i> |
| 21.18 | Sealing Firewalls and High Temperature Zones |
| 21.19 | Sealing Removable Parts |
| 21.20 | Mixing and Handling Two-Part Sealants |
| 21.21 | General Sealing Practices |
| 21.22 | Installation of Atite Seals |
| 21.23 | Sealing Learjet Model 45 Wing Fuel Tanks using DHMS S3.07 Sealant - <i>CANCELLED</i> |
